Jeff,  
Could you please forward me the appropriate security guidelines GMR has to follow regarding the application and distribution of the B1G1F coupons for Parliament Winter Party Zone Events (Jan 20-Feb 20). If you prefer, we could meet. Thank You for your help....Jose X4057

Marcella,

Dennis and I discussed this on-pack coupon promotion with Suzanne. The coupons will be affixed to sample 20's for distribution at Parliament events. The coupons will be a B1G1F and production will be limited to approximately 16,200 coupons. Serialization will not be required since GMR will apply the coupons.

The limited production quantity for the Parliament coupons will minimize PM-USA's exposure to misredemption. Therefore, please accept this as approval to print the coupons requested by Jose.

I trust this answers all of your concerns. Please feel free to call me with any questions.

Jeff
